**GET BEHIND BOY SCOUTS**

Interest has been revived locally here in Lomita in the Boy Scout movement and next Monday night there will be an entertainment given in the Lomita Hall by the home troop, assisted by San Pedro Troops. There will be some prominent speakers present and the "Camp Site" will be taken up for consideration. Few of us really understand the benefits of the training given boys who become scouts, and the individual results that follow the individuals through life. Court records show that a small per cent of criminals come from members of the boy scouts, this one thing alone being worthy of support from us all. First, the boys are taught courtesy, kindness to the aged, first-aid remedies, how to build camp fires, and most important of all to rely upon himself, which means "finding ones self."

**TOO MUCH HATE**

We see a press dispatch from Washington to the effect that upon his return from a tour of Europe Senator McCormick declares that hate, distrust and envy are doing more to hold back nations over there than anything else. Each week some new topic sprung from which European nations glean a new spirit of hate for each other. There are people right here in this town of the opinion that another great war will be fought within the next five or six years. Others do not agree, but frankly admit that world is a long way from peace. Scarcely any foreign nation is satisfied with the way territory was parcelled out at the peace conference, and each week sees new complications arising. Thousands still believe this would have been a just if America had taken a more prominent part in the league, as thousands of others do not think so. It is largely a matter of political opinion.

But no matter how we may think along this line we are forced to agree that war has left the world with too much hate and distrust and envy; in its heart. Nations are different from individuals, and we know that individuals who distrust their fellowman come to no good end. So the nation which refuse to forget its hates, lay aside its envy and trust its neighbor is due for trouble sooner or later. I would seem to be a pretty good time for the United States in the face of all things now going on in the world, to follow the old adage "Trust in the Lord and keep your powder dry."

**CURE FOR SNORING**

We have just read in an eastern paper a remedy for snoring. The writer says this remedy consists solely in sleeping without a pillow. He doesn't explain why that will cure snoring, and neither does he guarantee it to do so. But he offers the advice, and hopes it will be helpful to the good wife who says her husband snores so much that she can't sleep in the same room with him.

Snoring is a sort of confidential affair. At least it is seldom indulged in in public. But the truth is it is so prevalent hardly a home can be found in which snoring does not play a part in the domestic felicity—or infelicity.

And still you can't find a man or a woman who will openly admit they snore in their sleep. No one is conscious of it, of course, for he is asleep at the time, and in his waking hours he will not believe the statements that he has almost "raised the roof." If he is prodded in the ribs and to turn over, he grows angry and resents the imputation that he was snoring at all. But if the absence of pillows will, as the Eastern writer claims, stop the evil—and it certainly is an evil to those who have to listen to it—then by all means throw the pillow in the trash barrel, or give them to the kids to fight with. The cure would be worth several hundred times the original cost of a few pillows.

It is no longer necessary to lool under the bed for a burglar. He may be sitting in the parlor.

According to the bible, it tool Joshua to make the sun stand still but almost anybody can make a moonshine still.

Before praising the biscuit, the wise man will first find out whether or not the neighbors sent them in.

Another reason why most nations fear to fight America is they have seen some of our movie actors in shooting scrapes on the screen.

The blank look seen on the face of many of our citizens these days were caused by the thing we call an income tax blank.

We've always noticed that the man who wastes the most time usually sits around and broods over the time he has already wasted.
